-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed August 5, 2005, with respect to the rejected claims have been fully considered and are persuasive. The rejection of claims 1,7 and 13 has been withdrawn.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1,7 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Obuchi et al (US 6,597,674).

Obuchi et al discloses a method and apparatus for a handover from one base station to another for a mobile station, where an information symbols is spread a first spreading code (a short code) and a second spreading code (a group short code) and a mask symbol is spread by only the second spreading code, see Fig. 13 and 14, comprising;

detecting the received timing of a mask symbol from the second base station, see col.2, lines 41-47, and

carrying out the synchronous detection of the second spreading code assigned to the second base station. See col. 2, lines 53-54.

Obuchi et al fails to teach detecting the received timing of the mask symbol from the second base station "in a state in which a received timing of said mask symbol from said first base station is excepted from candidates of received timings." However, it would have been obvious to leave out the timing of the first station from possible candidates since the first mobile

station is in the process of handover to another base station and the timing of the first, i.e., current base station is not needed.

Allowable Subject Matter

4. Claims 2-6 and 8-12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
